

Production Attraction Incentive Guidelines

July 2021

Screen Queensland is a company owned by the Queensland Government that invests in the Queensland screen industry, attracts production including post, digital and visual effects to the state and supports screen culture activities for all Queenslanders.

Incentive Aim

The Production Attraction Incentive aims to attract footloose and fully financed screen projects to undertake production in Queensland.

The objectives of the incentive are to:

- increase the level of screen production in the State of Queensland;
- increase skills development and employment opportunities for Queenslanders working in the screen sector; and
- increase business activity for Queensland based companies.

Applicants who plan to carry out post production (including dailies) work in Queensland, **in conjunction with** physical production, will be considered positively.

For projects **solely** undertaking post/VFX production in Queensland see our [Post, Digital and Visual Effects Incentive guidelines](#).
